

The Future of innovation in smart learning

How to reshape Learning and advance Productivity and Sustainability using
Technology

Mohammad Almadani

CEO – Classera Inc.

“The first step in teaching students to innovate is making sure that educators have opportunities to be innovators themselves.”

[Suzie Boss](#), Education consultant

The Combinatorial Effects of Technology are Accelerating Change

Moving to the 21st Century

- Integration.
- Schooling.
- Knowing.
- Traditional Content.
- Learning Tech Skills.

Traditional Learning

- Transformation.
- Lifelong Learning.
- Understanding.
- interactive Content
- Developing 21st Century Skills

21st Century Learning

Technology based innovative learning Objectives

- Customization and individualization for each learner
- Democratization of access, content and tools
- Instant access to learning materials & sharing.
- Solve the Place and Time indifference
- Elimination of routine tasks in learning
- New evaluation methods.

Smart Schools Model Dream

BUT, Is that realistic
!!?

Or it is just dreams
and fictions !!

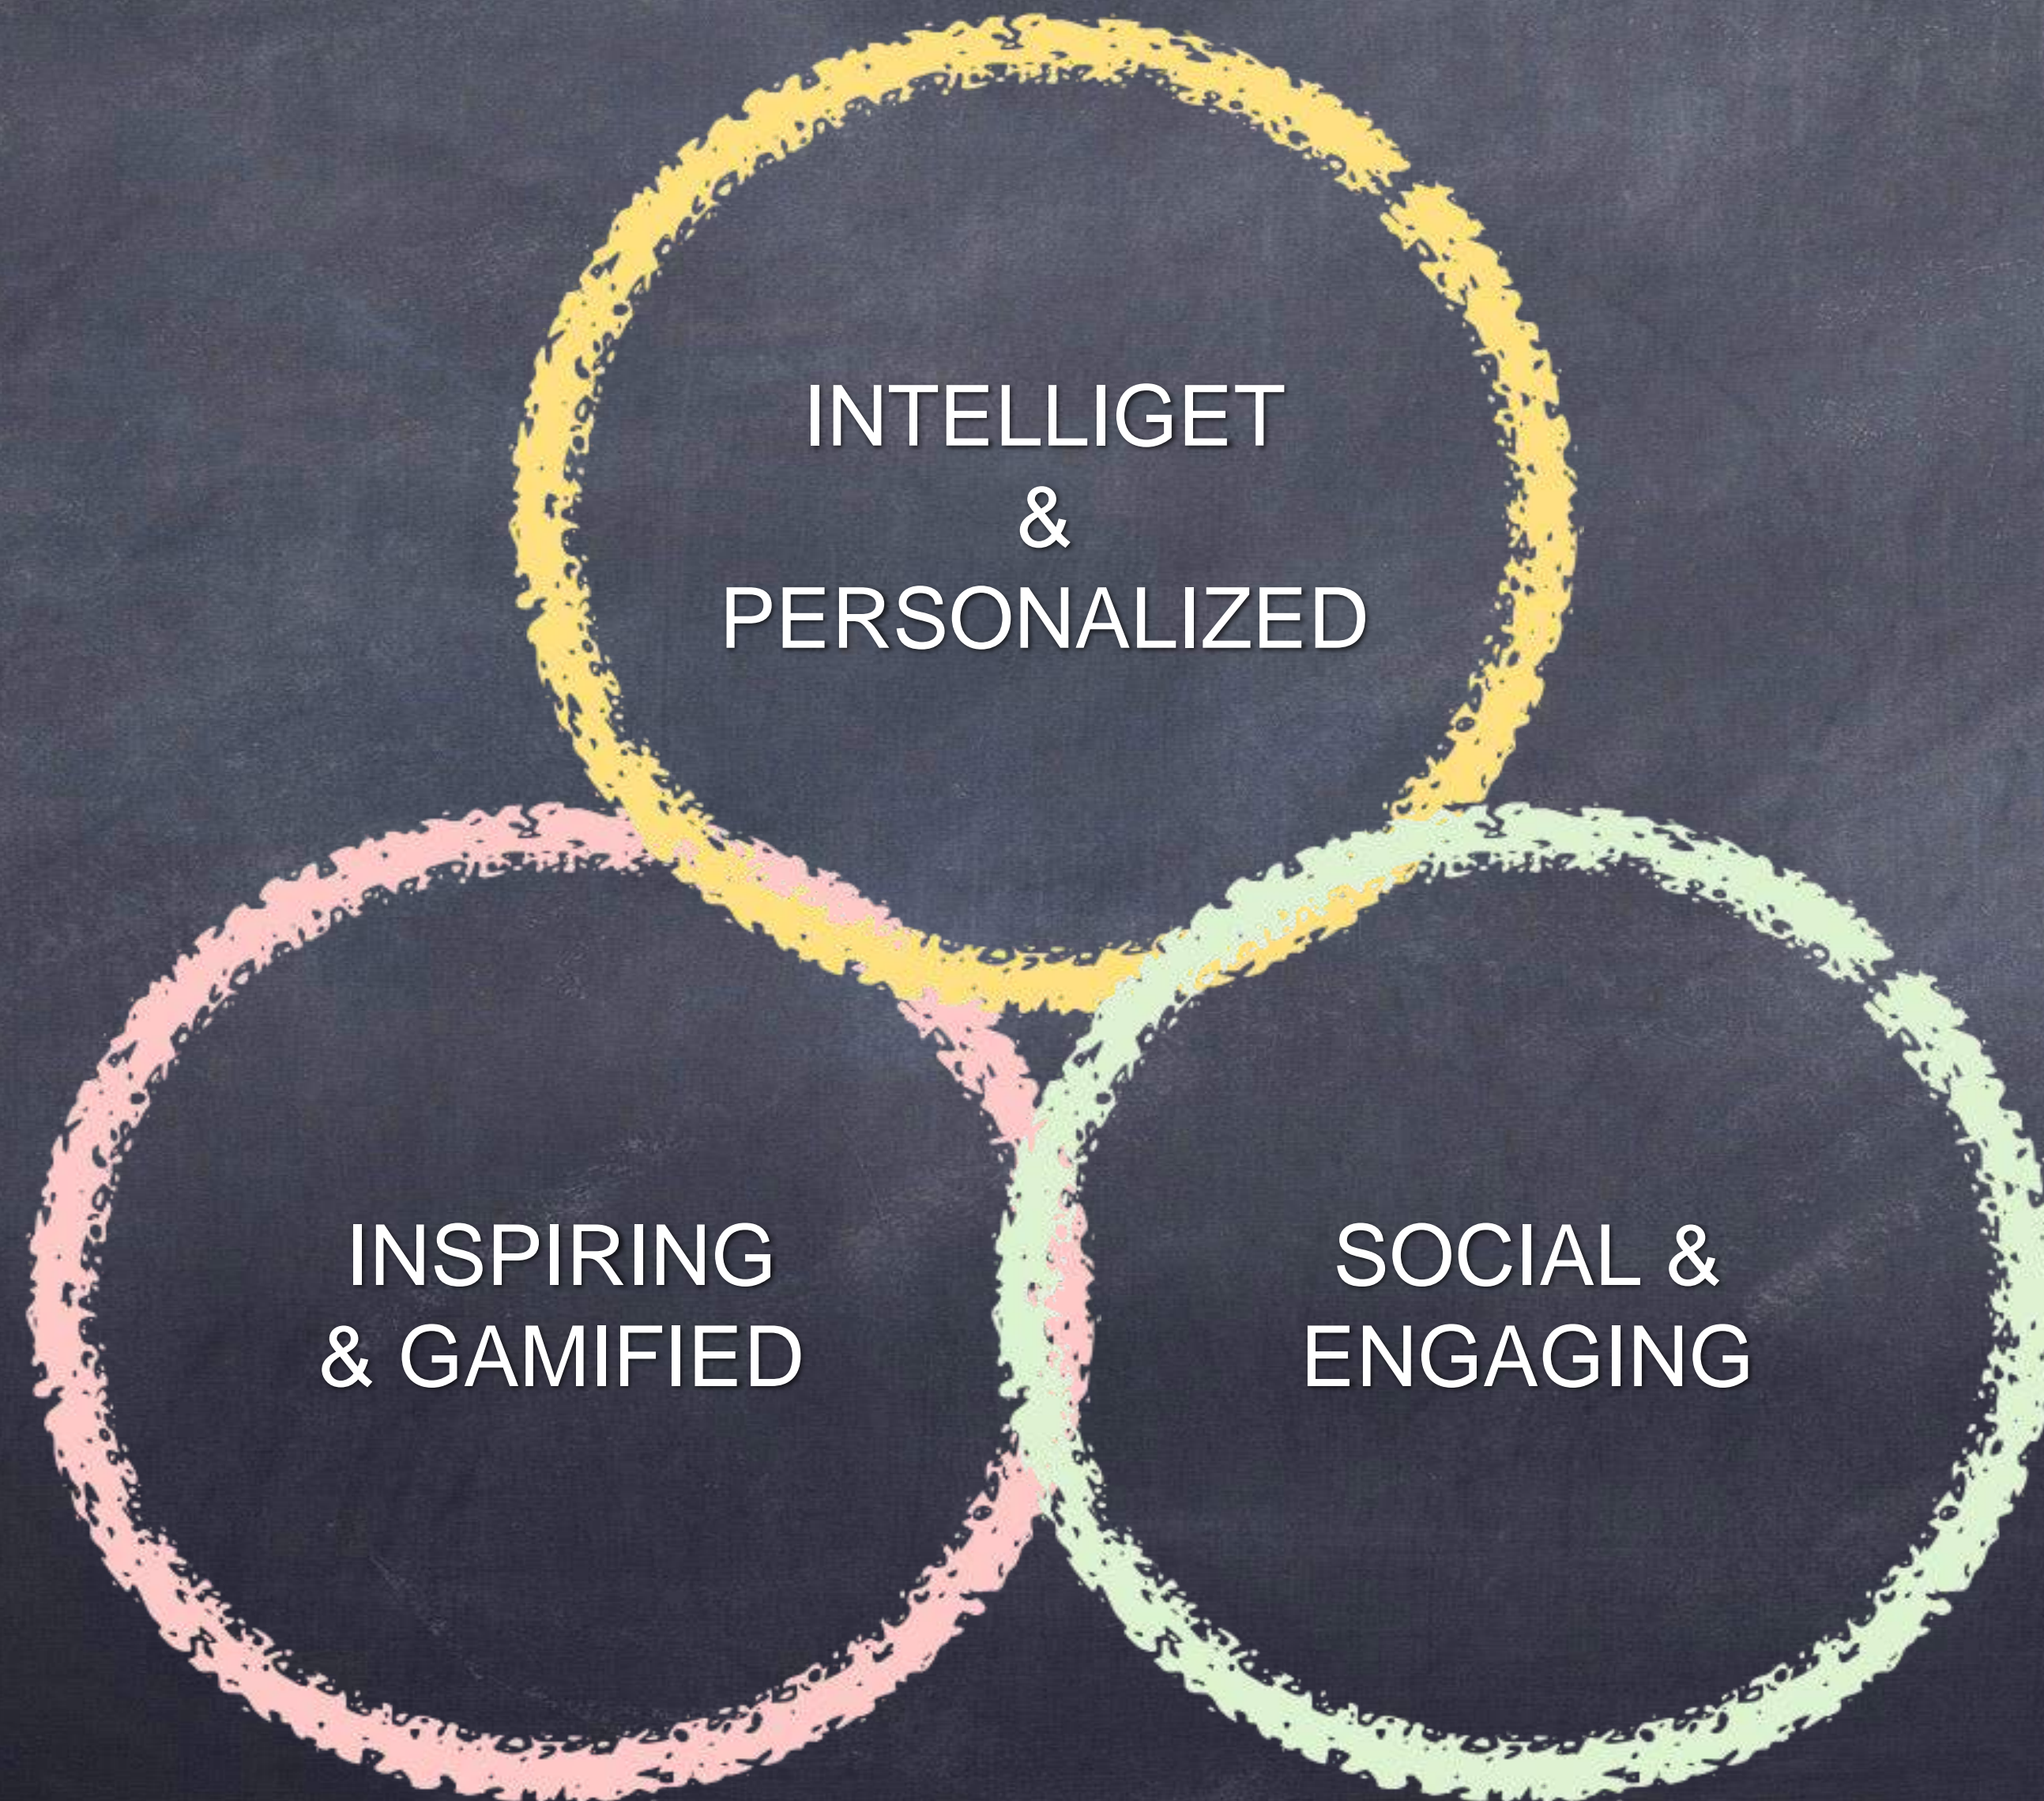

"You have to attend classes. You can't just follow me on Twitter."

Especially that more than 80%
are Gov Schools!

Are We Taking Advantage of the
current Technology Potential in
Education?

Ummm...No

The new formula

Intelligent & personalized

- Can we help the students without teachers' interactions?
- Can we predict the student performance before tests and fix it or improve it early on?
- Can we help the student anytime 24/7?
- Can we personalize the materials to student & teacher individual needs?

Data Mining for better Personalization

The Power of Data!

The more data we know about
our students throughout their journey;
The more we can help and assess them
Actually we can know a lot

Virtual Classrooms

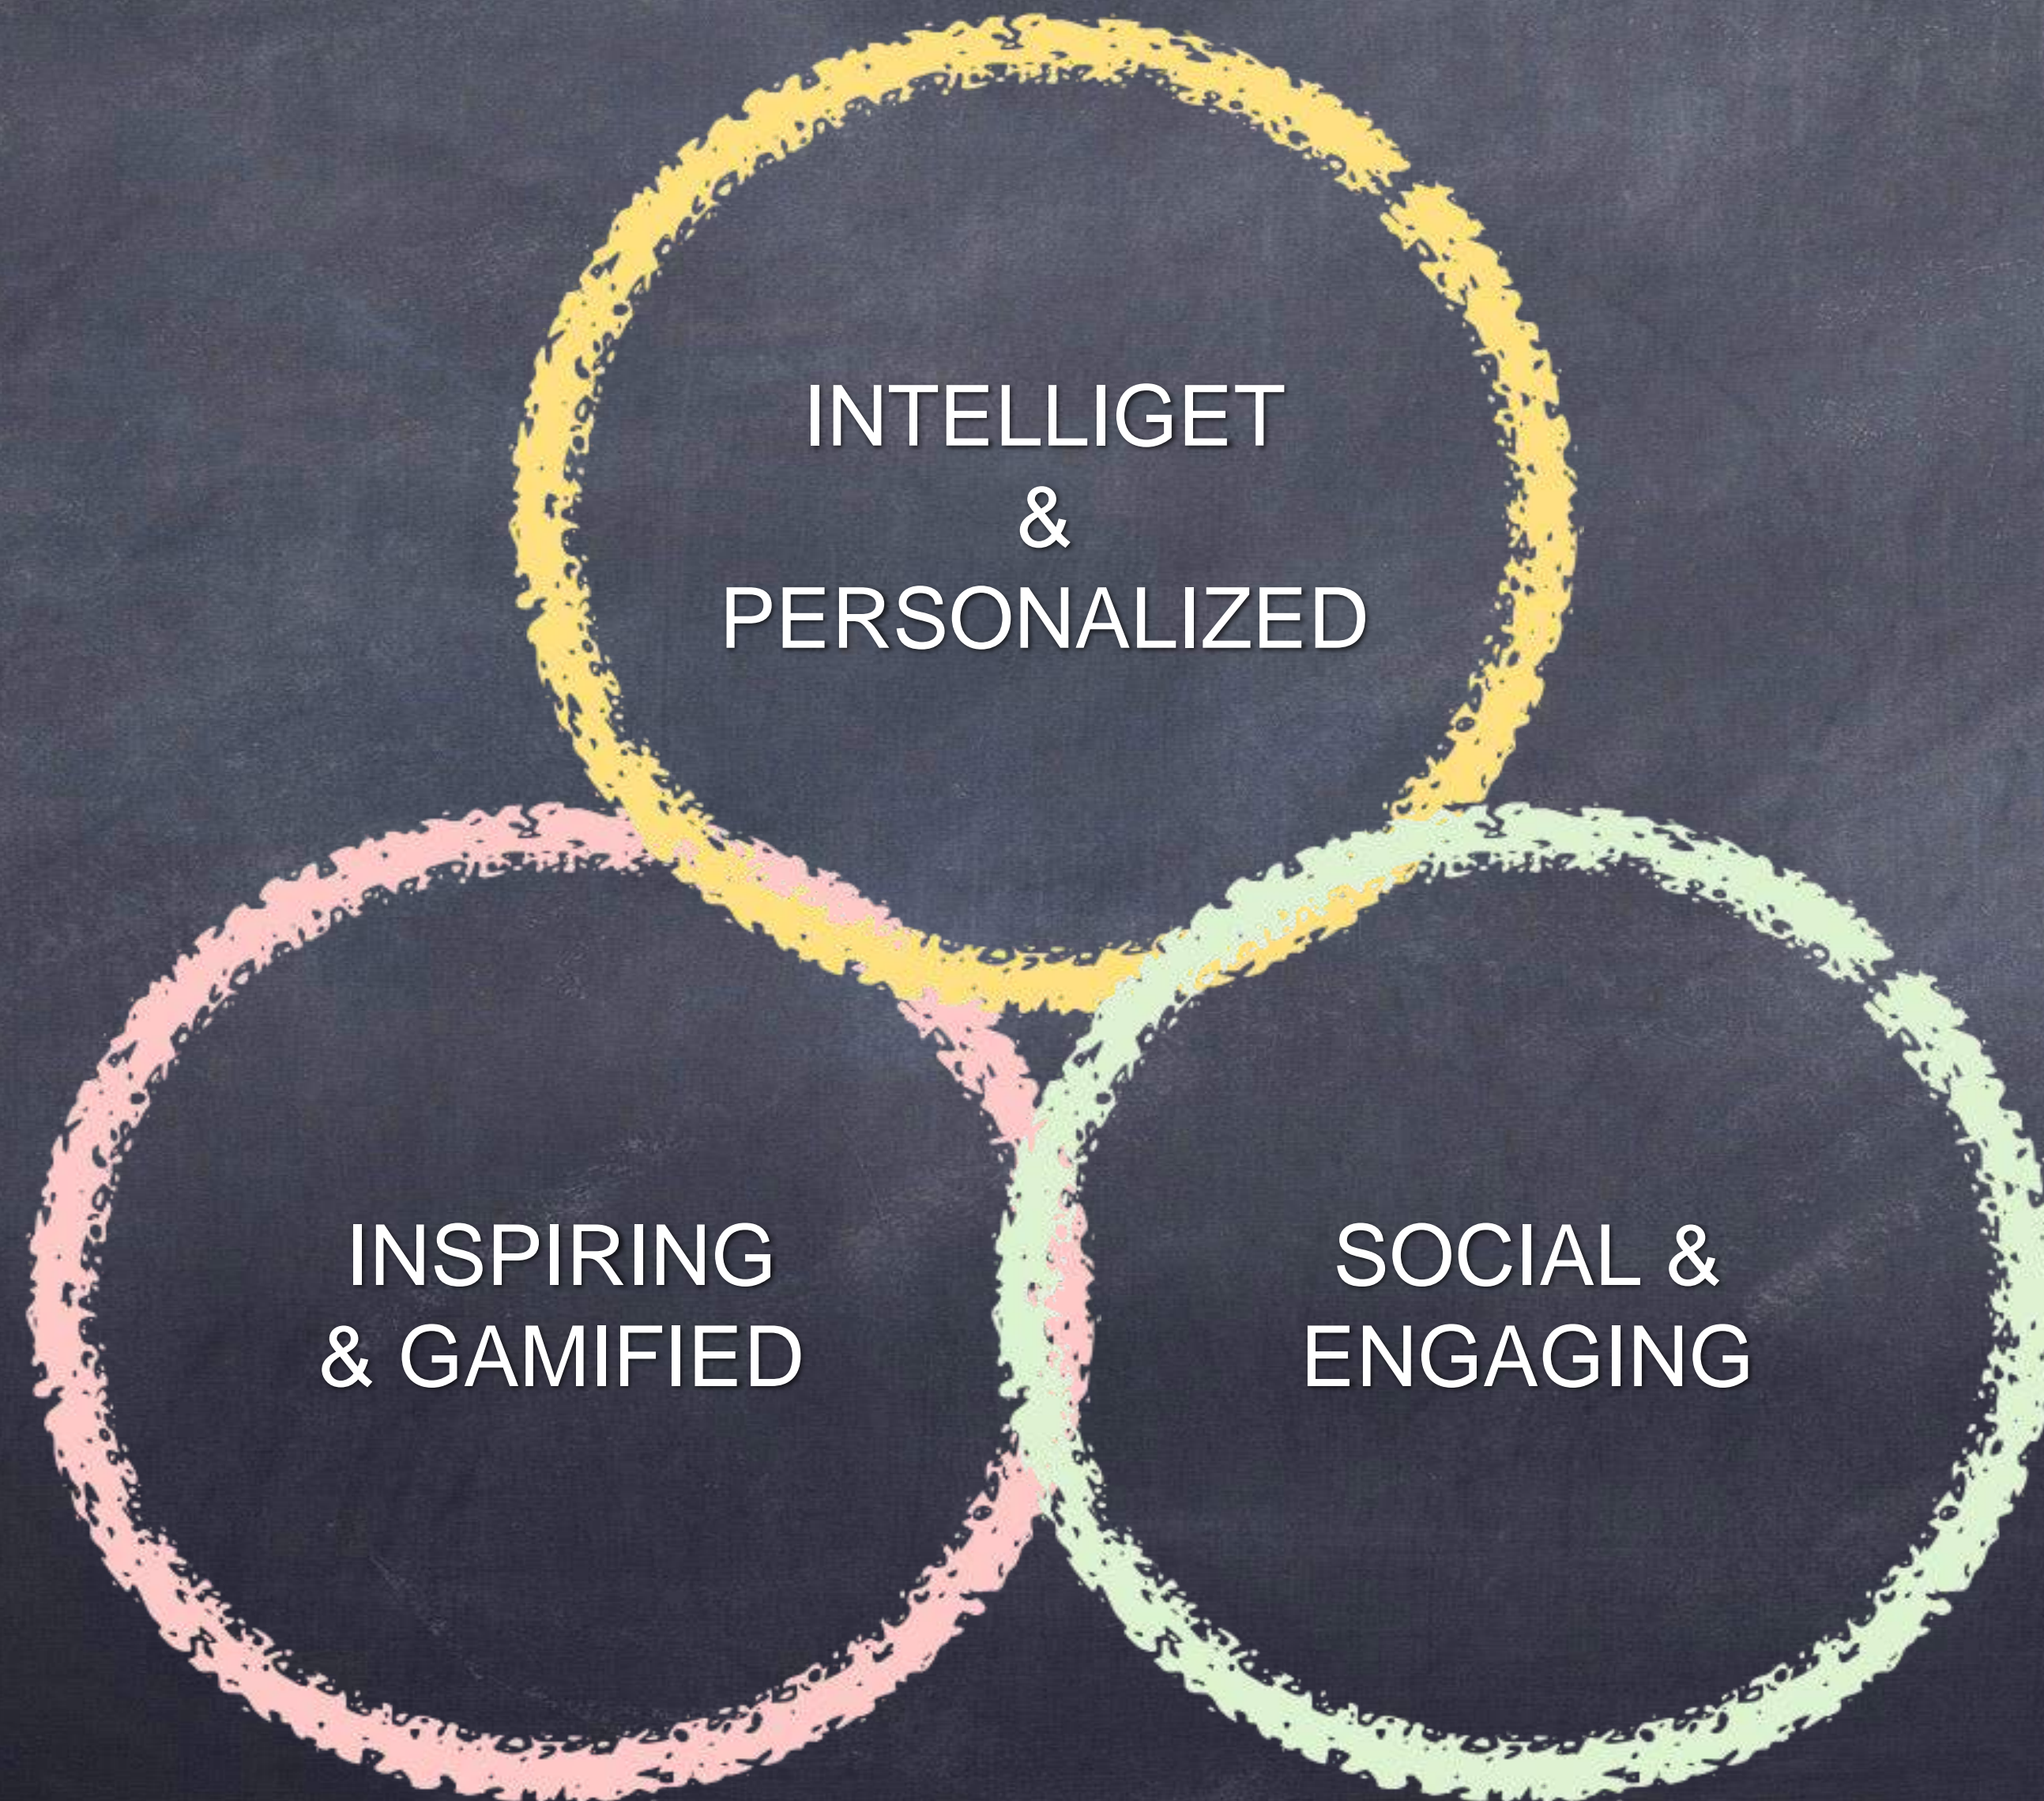

C-Track

The power of social learning

- Classrooms group competitions and awards.
- Social Media competition.
- Digital portfolio of students.

The new formula

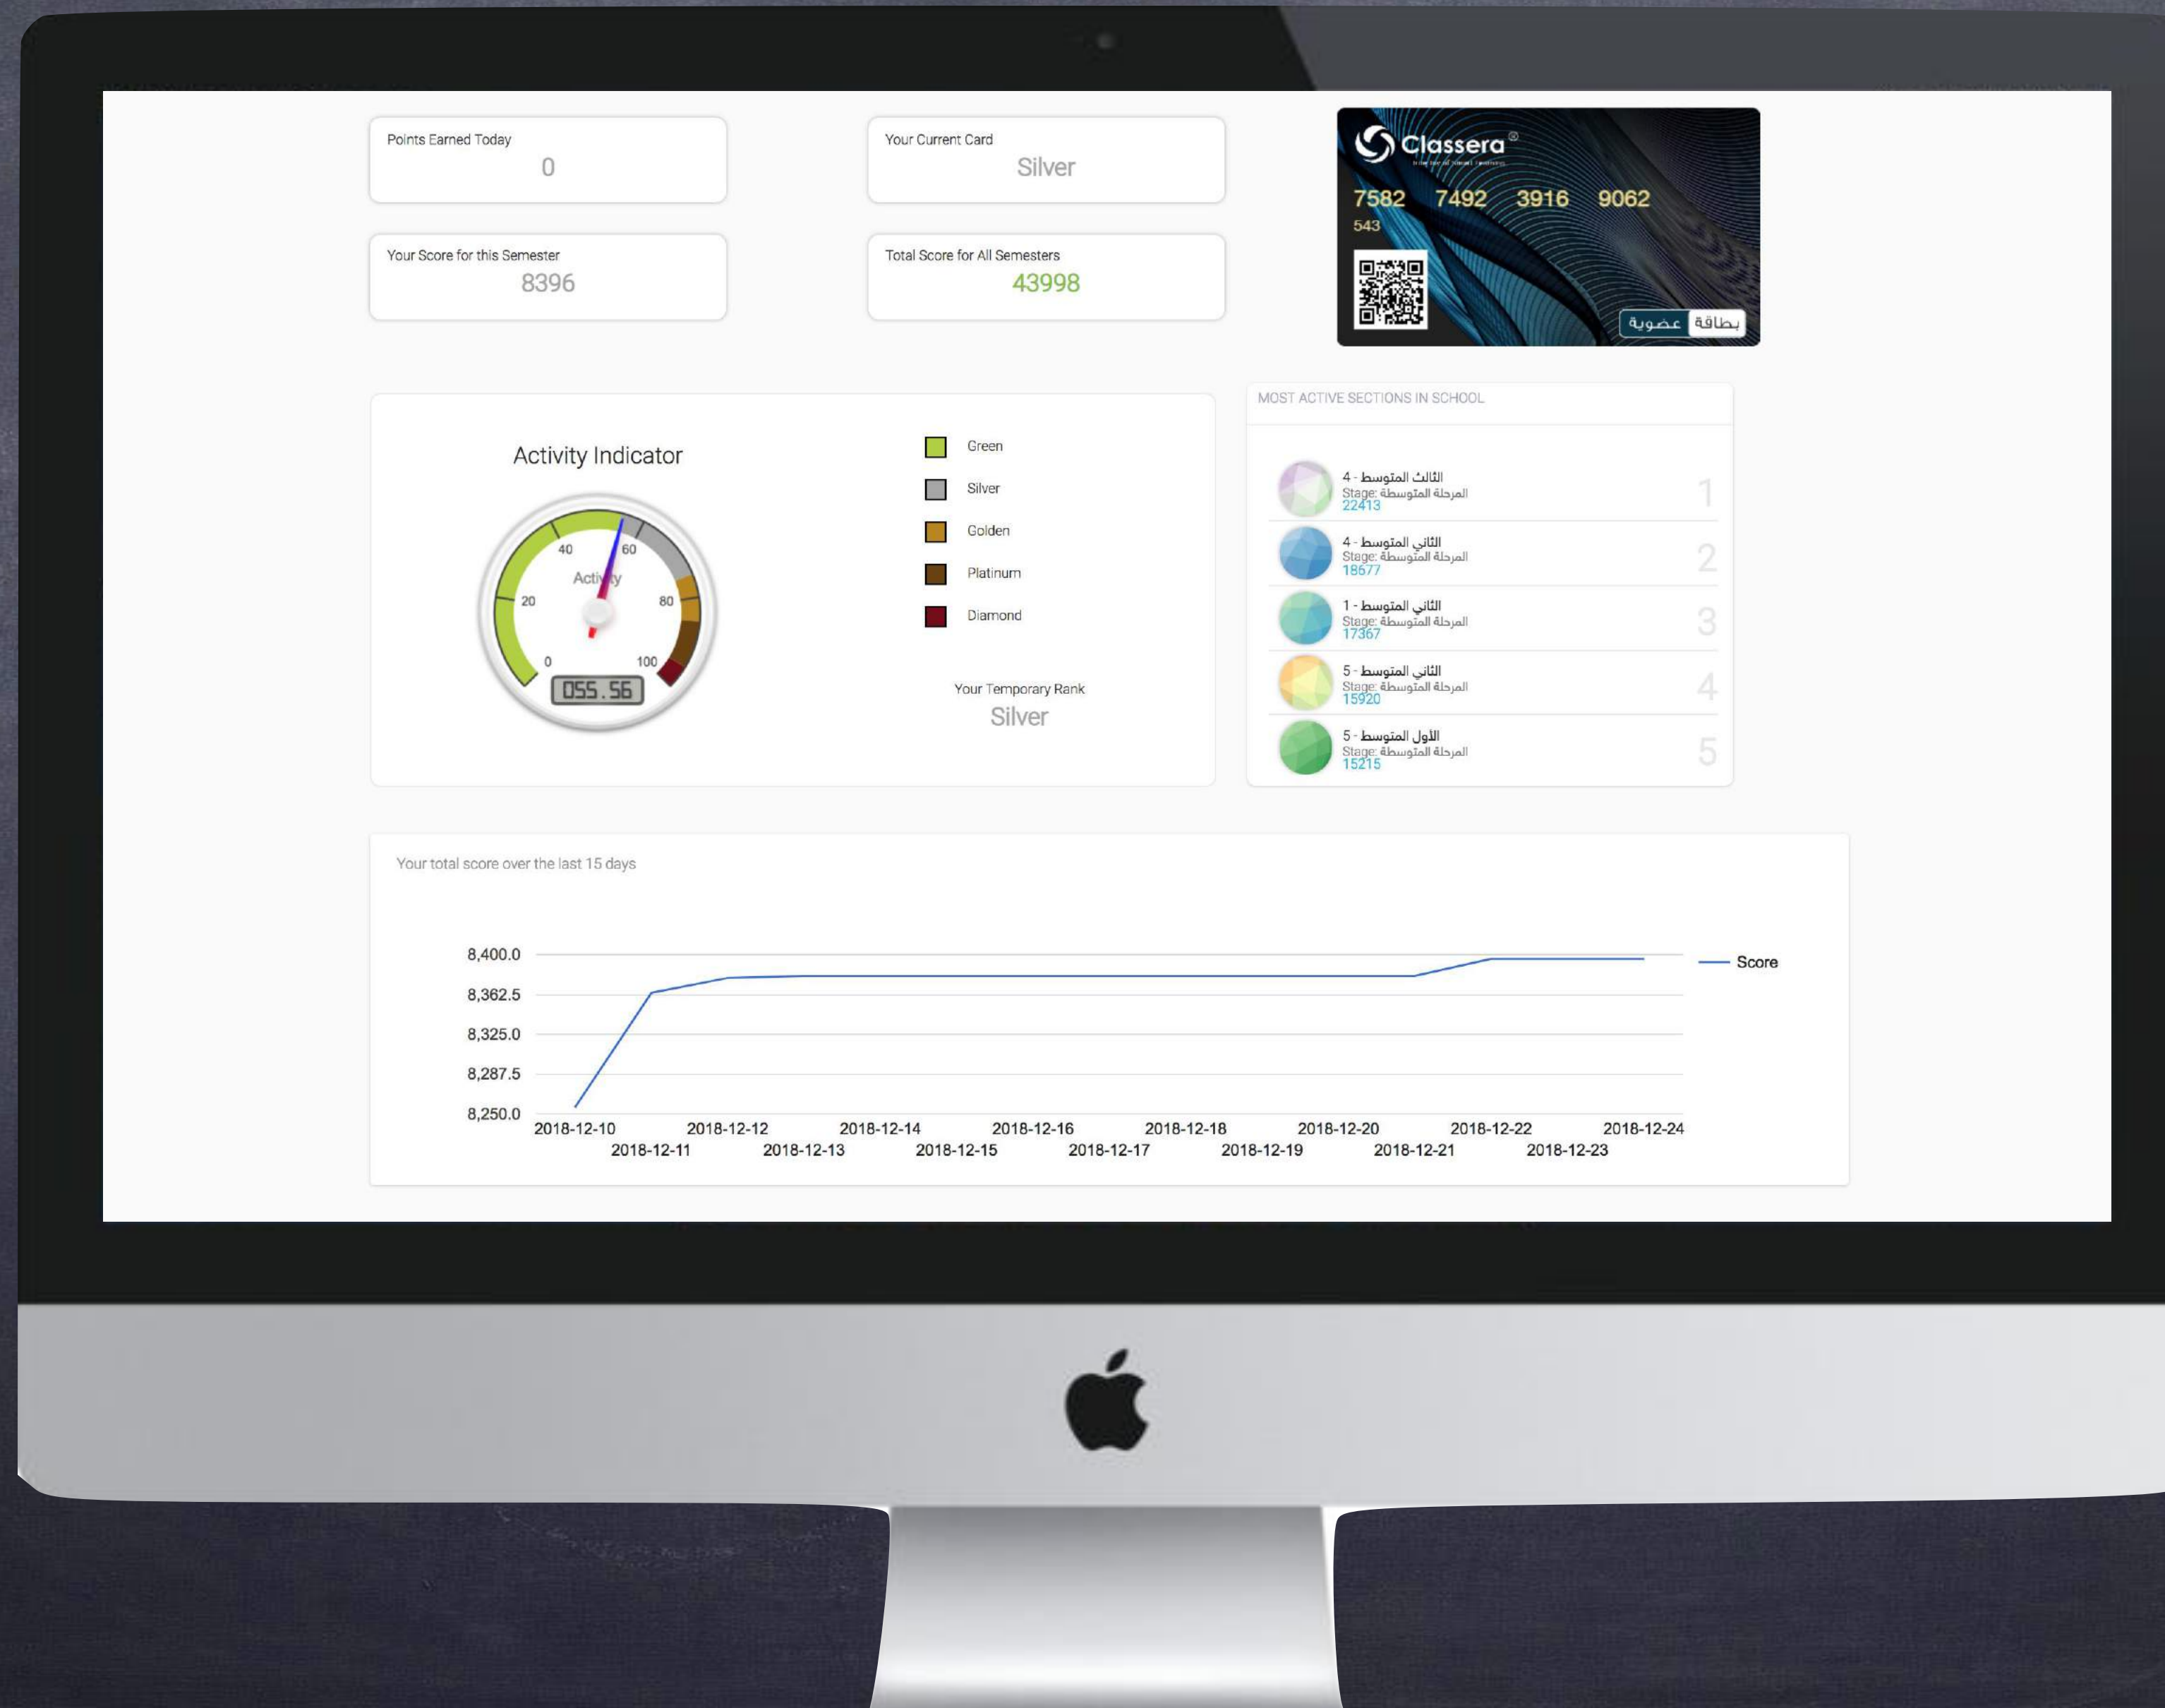

the JOY of smart learning

- Would it be unethical to make learning **addictive**?
- Is it possible to beg for another assignment?
- Do we in fact motivate or demotivate?
- Can we reword everyone? I mean ALL?

True Gamification!

Gamification

C-Reality

The joy of smart learning

- Online Badges.
- Link achievements to student CV.
- Link education to actual games.

BUT, Is that realistic
!!?

Or it is just dreams
and fictions !!

E-Pay for Canteen Management

Is it realistic ?

80% are Gov schools

Budget is a BIG OBSTACLE!!

How can we make it
sustainable?

Examples of Digital Transformation in Public Schools

A formula that works

A Teacher (Mr. Mohammad Alfawaz) posted this video on twitter for the engagement of his blind students with Classera.

At the end, he asked his students if they want to have more assignments!. Watch the response yourself.

That is revolutionary !

Will AI Replace Teachers?

We Believe that the M.E can be a role model
and a bench mark once again in applying

Smart Learning

And a proof that

The FUTURE is HERE!

Thank you !
